President Announces Resignation Plans

Kaplan to step down August 31 to pursue teaching interests

Having guided UNH's transformation from an undergraduate commuter campus to a modern university with both resident and commuting students and more than 20 highly respected graduate programs, Phillip Kaplan announced October 29 that he will step down as president of the university, effective August 31, 1991.

Citing personal and professional reasons, especially a desire to return to teaching, Kaplan revealed his intention in separate announcements to the UNH faculty and staff and, afterward, at a news conference on campus.

At a special meeting of the Faculty senate held in the auditorium of Dodds Hall, Kaplan said: "First and foremost in my consideration is my sense and

demonstration of their affection.

In a letter distributed the same morning to all university employees, Kaplan reiterated his belief that the university is strong and stable "and, I think, significantly different from what it was in the early 1970s." He cited among the university's strengths the quality of the faculty, improvements to

include: Henry E. Bartels, William I. Bergman, William C. Bruce, Murray Gerber, Flemming L. Norcott, Jr., Joyce O. Resnikoff, Francis A. Schneiders, and Leon J. Talalay.

As for his own plans, Kaplan said

"I want you to know that I'm taking leave of you as president with a lasting affection and a great deal of gratitude for all you have done to help achieve a great deal throughout our many years together..."

After 18 years as UNH President, Phillip Kaplan will resign from the position on August 31 to resume his teaching career.

"First and foremost in my consideration is my sense and my conviction that it is time for a change and that the destiny of the college should be placed in younger hands..."

my conviction that it is time for a change and that the destiny of the college should be placed in younger hands...I feel confident that the university is in a strong and stable position... (and) knowing that...allows me to... (leave the presidency) after nearly two decades of growth and change."

The faculty responded to the president's announcement by giving him a standing ovation and crowding around to shake his hand in a clear

university facilities, expansion of its physical plant, capital improvements now underway and, in particular, the growth of the university's graduate programs.

He noted that a nine-member search committee headed by Robert F. Wilson, a member of the UNH Board of Governors, has been established to launch a national search for a new president. Committee members

that he will take a one-year sabbatical leave, during which time he plans to travel with his wife and then spend at least eight to nine months engaged in extensive study in preparation for his return to the classroom. Kaplan is expected to resume his teaching career as a professor of economics in the UNH School of Business in the fall of 1992.

"I want you to know that I'm taking leave of you as president with a lasting affection and a great deal of gratitude for all you have done to help achieve a great deal throughout our many years together," said Kaplan. "Serving as president has been a great privilege as well as a source of tremendous personal satisfaction. I am grateful for your support."

News of Kaplan's resignation was carried on several major radio and television networks as well as in area newspapers.

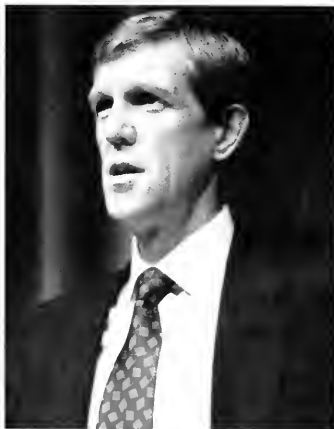

Ethics Seminar Focuses on Workplace Issues

When people ask him how they can tell if a decision they are making is unethical, David Nassef, ombudsman at Pitney Bowes, offers them a simple but effective rule of thumb. "I ask them, 'Do you want your decision to be printed on the front page of the local paper for your family to read?'"

Helping employees work through such ethical dilemmas is not as uncommon as one might think, said Nassef, one of four panelists who recently appeared on the UNH campus as a participant in "Ethics Programs for the Workplace: How Do They Work?," held in Dodds Hall Auditorium on October 3.

More than 125 people turned out to hear the views expressed by ethics experts from the public, non-defense and defense sectors. Moderated by Judith Neal, associate professor of management at UNH, the program included lectures by Nassef, Alan Plofsky, executive director and general counsel for the State of Connecticut Ethics Commission, Kent Druyvesteyn, staff vice president for the ethics program at General Dynamics, and Audrey Clapham, associate director of the university's Southeastern Connecticut branch.

Tracing various models of ethical analysis from ancient Greece through modern times, Clapham emphasized

Kent Druyvesteyn, staff vice president for the ethics program at General Dynamics, was one of four speakers who participated in the special ethics seminar held in October.

that ethics sets the standards for agreements between groups of people be they employers and employees, students and teachers, sellers and buyers. Having ethical guidelines provides a more secure and satisfying work environment, she said.

As head of a seven-member bipartisan citizen group that establishes and enforces codes for public officials,

lobbyists and others in Connecticut, Plofsky spoke about ethics in the public sector. Directly involved in creating codes that deal specifically with financial disclosure, conflict of interest, real estate development, banking and gift restriction, he praised the role of citizens and the media in establishing ethics rules and influencing existing codes. He underscored the importance of public backing in the call for ethical behavior.

Both Nassef and Druyvesteyn shared their professional experiences as overseers of ethics programs in the defense and non-defense sectors. The two defined their responsibilities largely as establishing acceptable guidelines, sharing ethical values with all within the organization, and monitoring and, if necessary, enforcing these norms.

While both men agreed that ethics programs provide a supportive atmosphere for ethical behavior, each also said that people develop their own values as part of the life process. Said Druyvesteyn, "We're not in the business of replacing missing values."

The forum, the second in a series of programs on ethics at UNH, was sponsored by Richardson-Vicks U.S.A., United Illuminating, the Electric Boat Division of General Dynamics and the Bank of New Haven.

UNH Prof Visits Germany As Guest of Inter Nationes

Shortly after sharing his views about the economic development of Central Europe at a Wisconsin-based conference, Michael Kublin received what some international business professionals might have considered the offer of a lifetime—an invitation to go to Germany and talk with leading experts first-hand about the economic challenges there.

Kublin, an assistant professor of international business and marketing, arrived in Germany just three weeks after unification as one of 10 invited guests of Inter Nationes, a private organization funded by the German government. The group is working to stimulate interest in their country by welcoming outsiders who they hope will return to their native lands and write about their experiences.

During his two week stay Kublin met with economists, university

professors and German officials and had the opportunity to visit Berlin, Hanover, Munich and Leipzig.

"One of the most incredible experiences I had was traveling by taxi from West Berlin into East Berlin," says Kublin in recounting his experiences. "Within the space of 10 minutes I was in another world. West Berlin is bustling, opulent, energetic and colorful while 15 minutes away the eastern section of the city is drab, poor and dilapidated."

Kublin attributes many of the problems surrounding the unification effort to these differences, and those problems are mounting daily. Although there was an initial euphoria on both sides about a united Germany and privatization of East German industry, the amount of work and money that must be funneled into the East to bring industries up to par has made both German and international

investors wary, he says.

No official figures were available from government sources regarding the actual number of outside investors to date, but Kublin estimates that the percentages are small, and so far, he says the majority of investments have been made by large multinational German and non-German firms. He speculates that fear of inflation coupled with labor and environmental problems within East Germany are slowing down the privatization effort even though viable business opportunities exist in the German economy, particularly in the machine tool, consumer goods and tourist industries.

As for how long the process of economic integration will take, the answers are unclear. Says Kublin, "In Germany, the optimists say five years, the pessimists say 10 years and the realists, like myself, say 15 years."

The university's first-ever doctoral candidates — Jean Woodruff Laliberte (left) and Sandra Honig-Haftel — found themselves in the limelight during commencement exercises held in the North Campus gymnasium on Saturday, January 19.

UNH Awards 600 Degrees/Two Doctorates

It was history in the making. The University awarded its first two doctoral degrees in management systems to Sandra Honig-Haftel of Cromwell and Jean Woodruff Laliberte of Springfield, MA, during winter commencement ceremonies held on campus the afternoon of January 19. Resplendent in blue and gold robes, the women held center stage for onlookers and the press alike, as they joined their fellow UNH graduates — more than 600 in number — in accepting their degrees before an overflow crowd in the North Campus gymnasium.

After brief opening remarks by Board of Governors Chairman Norman I. Botwinik and a musical prelude by the West Haven Symphony Orchestra Ensemble, President Phillip Kaplan presented honorary degrees to Edward F. Zigler, Sterling Professor of Psychology and director of the Bush Center in Child Development and Social Policy at Yale University, and to Henry C. Lee, director of the Connecticut State Forensic Science Laboratory and practitioner in residence in forensic science at UNH.

Then, in the midst of camera flashes, Graduate School Dean William Gere

presented the doctoral degrees to Laliberte and Honig-Haftel, the first of nearly 410 graduate degrees awarded. Later, approximately 225 undergraduates accepted their degrees from the deans of each of the university's five undergraduate schools.

After brief remarks by Alumni Association President Stanley Gniazdowski '72, who officially welcomed all the new graduates into its extended family.

A reception held in the Student Center Lounge for the graduates and their families and friends capped the day's event.

Families and friends of the more than 600 UNH graduates turned out to congratulate the class of 1991.

Henry C. Lee, director of the Connecticut State Forensic Science Laboratory and Edward F. Zigler, Sterling Professor of Psychology at Yale, received honorary degrees. Shown (left to right) are: Board of Governors Chairman Norman I. Botwinik, Lee, Zigler and President Phillip Kaplan.

UNH Student Wins a Chance to be President for a Day

Little did Carl McFadden know when he came to UNH four years ago as a freshman that he would one day be sitting behind the president's desk.

McFadden, a senior majoring in financial accounting from Wilmington, MA, won a chance to trade places with UNH President Phillip Kaplan through a raffle sponsored by the Day Student Government to help raise money for the Hill Health Corporation's toys for children Christmas program. Some \$500 was donated to the corporation by the DSG.

McFadden, who lives on campus in the Parc Vendome Residence Hall, bought several tickets to better the odds of winning a view from the president's seat.

As president for the day on December 10, McFadden started his daily schedule with a breakfast meeting with the president and several UNH students. He had an opportunity to meet with the Vice President for

Carl McFadden (left), a senior from Wilmington, MA, enjoyed his day in the president's office in Maxcy Hall. As president for a day on December 10, McFadden met with President Phillip Kaplan (right) and with fellow students and key university administrators.

Finance Frederick Fischer, the Director of Facilities Justin McManus and with several members of the university's Alumni Board.

McFadden said he appreciated the

chance to see how a university the size of UNH works behind-the-scenes and said everyone from the president to the administrative staff really made him feel comfortable in his new role as president for a day.

IT'S ALL IN THE GAME—Tackling such problems as world hunger, saving the rain forests and balancing the budget are not easy tasks as participants in the World Game, a unique simulation activity, found out. More than 100 players turned out for the exercise of wits held in the North Campus gymnasium on October 4. The brainchild of Buckminster Fuller, an American inventor and philosopher, the game was designed to help people think about the earth's future by affording an inside look at international trade and a variety of societal ills. The event, held on campus for the first time, was sponsored by the Graduate Student Council and the Day Student Government.

Bartels lecturer William Weisz, vice chairman of the board and retired chief executive officer of Motorola, Inc., (left) graciously accepts a plaque presented by Victor Cooper, vice president of the Day Student Government, at the conclusion of his on-campus address on November 19.

Weisz Discusses American Industry and International Competitiveness

"Today in American industry, there is a renaissance going on... 'Made in the U.S.A.' is coming back into vogue, and we are reading about the beginnings of an export boom." These words essentially summarize the views expressed by William J. Weisz, vice chairman of the board and retired chief executive officer of Motorola, Inc., when he appeared at UNH on November 19 as the fall 1990 Distinguished Bartels Fellow.

In an hour-long address to a standing room-only crowd of students, faculty and members of the regional business community, Weisz outlined his beliefs about American industry and international competitiveness. He said that the customer (local or foreign) will buy the product with the best value and that, if American companies provide products that excel in quality, reliability, features, price, customer service and the like, they can compete successfully in any major market in the world. He added that "American companies are redoubling their efforts" in these fundamental areas and cited several success stories.

Among the successes Weisz discussed were two cases in which his own firm, Motorola, 1988 winner of the Malcolm Baldrige National Quality Award, has gained significant market share in the world marketplace. In the first instance, Weisz spoke about

competing against the Japanese — in Japan. In the late 1970s, he stated, Motorola was given the opportunity to design and build a radio pager for the Nippon Telegraph and Telephone Company. By 1980, the U.S. firm had won the first production contract ever given by NTT to a foreign communications supplier, and to date, Motorola has delivered over 900,000 radio pagers to the Japanese company.

Example number two concerned Motorola's new micro TAC portable telephone, a sample of which Weisz pulled out of his shirt pocket to show the audience. He described the short-cycle process by which the telephone is manufactured and declared that this product, "designed and made in the U.S.A. is competing successfully — winning — against those manufactured anywhere in the world." He added, with this product, Motorola has "the Number 1 market share in the world."

In addition to his address given at 4:30 p.m. in the auditorium of Dodds Hall, Weisz spent his day on campus in meetings and discussions with undergraduate students and faculty from the UNH schools of Business and Engineering. He also participated in an informal luncheon hosted by M.L. McLaughlin, dean of the School of Business, and talked with students and business people at a reception following his speech.

Robert B. Dodds Passes Away

Robert B. Dodds, a long-time member of the Board of Governors and a staunch supporter of the university, died November 13. Born in Wabbaseka, AR, on March 11, 1904, Dodds was president and treasurer of the Safety Electrical Equipment Corporation in Hamden and Wallingford for 29 years.

His affiliation with UNH began in 1927 when he taught electrical engineering. He joined the university's Board of Governors in 1968 and has been an active promoter of the university since that time. He was awarded an honorary Doctor of Laws degree in 1980 and that same year a new athletic field on the university's North Campus was named in his honor in recognition of his unstinting generosity and support for the university. The School of Business also was named after him in 1985.

Dodds' most recent involvement in the university's activities included service as honorary chairman of the university's Fund for Engineering; the fund raised more than \$2.5 million for construction, equipment and the establishment of an endowment fund in the School of Engineering. Dodds' special interest was in the dean's endowment which supports faculty development and student scholarships.

Dodds, a Woodbridge resident, leaves a wife, daughter and three sisters.

Robert B. Dodds

New ReQuest System Part of Several Library Improvements

Whether they're searching for information on the latest developments in the Middle East or research on an obscure medieval poet, UNH students will find the help they need as close as the Marvin K. Peterson Library. The library's new reQuest system, a computerized information network run by the State of Connecticut, provides access to four million records at the touch of a button. Located near the library's card catalog, the new reQuest microcomputer terminal was a gift to the university made possible through the generosity of Fenmore R. Seton, a long-time member of the UNH Board of Governors, and his wife, Phyllis. The plaque honoring the Setons and the persons in whose name the gift was given was officially unveiled at a Friends of the Library event held at the library on October 2.

University Librarian Gretchen Hammerstein noted that the reQuest system augments the university's holdings by providing access to collections in 133 other libraries throughout Connecticut. These facilities include the Connecticut Department of Transportation library, the Connecticut State Library, the library at the Univer-

Fenmore R. and Phyllis Seton stand beside the plaque presented to them in appreciation of their gift to the library. The plaque was unveiled at a Friends of the Library event held October 2.

sity of Connecticut, the New Haven Public Library and many others. The system, geared largely for undergraduate and beginning-level graduate student research needs, allows users to search for a particular holding geographically. In addition, the state recently approved adding UNH's machine readable records (items purchased since 1986) and 1,466 periodicals to the reQuest system.

The new workstation is but one of several new improvements enacted or currently in the works at the library, said Hammerstein. The Seton gift also makes possible the acquisition of a new on-line search terminal geared to meet the more advanced needs of graduate and doctoral students and faculty.

The Setons gave the gift in honor of Mr. and Mrs. James Q. Bensen, Mr. and Mrs. Roland M. Bixler, Mr. and Mrs. Norman I. Botwinik, Mrs. Robert B. Dodds and the late Mr. Dodds, Mr. and Mrs. Frederick G. Fischer, Dr. and Mrs. Phillip Kaplan, Mr. and Mrs. Lawrence C. Parker, Mr. and Mrs. Herbert H. Pearce, Mr. and Mrs. Leon Talalay, and the memory of Professor and Mrs. Rollin G. Osterweis.

Cultural Activities Blossom on Campus

This year, more cultural activities than ever are available on the UNH campus.

Members of the new UNH Cultural Affairs Committee, which met for the first time in July 1990, spent the fall arranging a new UNH Performing Arts Series which will debut February 7 with an appearance on campus by the New Haven Morris & Sword Team, an energetic, costumed dance group.

The series will continue with a March 1 performance by Coyotes Can't Dance, an acclaimed female country and western band, one of whose members is Judith Neal, associate professor of management at the university. The performance will take place in the Student Center cafeteria beginning at 8 p.m.

Closing out the series this spring will be a string quartet of outstanding students from New Haven's Neighborhood Music School. This group will perform on Sunday, April 28, at 2:30 p.m.

All three events in this series are free and alumni, friends, and the general public are invited.

Meanwhile, the Cultural Affairs Committee, 10 members and growing, has taken numerous steps to make the UNH community as well as residents throughout the Greater New Haven area aware of the wide variety of cultural activities and events available here.

This fall the group published its first brochure, a colorful piece listing 15 events scheduled during October through December, which was distributed to more than 1500 individuals, families and community organizations. The response was excellent, and a second brochure, outlining spring activities, was produced in January. Anyone interested in receiving a copy or who would like more information about the Performing Arts Series is invited to contact the university's Public Relations office at (203) 932-7242.

UNH Joins the Recycling Effort

With the start of the new year, UNH began a recycling program in compliance with Connecticut state law. All buildings on campus, including the residence halls, are separating and disposing of their trash in appropriate bins placed throughout the campus. Items currently being collected for recycling are bottles and cans, newspapers, office paper, corrugated cardboard and recyclable plastic.

Parents Weekend and Homecoming

UNHers showed their true college spirit when they participated enthusiastically in two key university events this October — Parents Weekend (October 12 and 13) and Homecoming (October 19 and 20).

Although torrential downpours flooded the area, making big news across the State, UNH parents and students still turned out in force for Parents Weekend. Moms and Dads found a dry and hearty welcome Friday evening when they stopped by the Student Center registration desk — where appetizing hors d'oeuvres prepared by our School of Hotel, Restaurant and Tourism students awaited them.

More than 75 parents attended the parents meeting held on Day Two; many took the opportunity to browse through the new wing of the School of Engineering and to visit the residence halls — both welcome respite from the elements.

Several stalwart souls, huddled beneath umbrellas, caught the Charger football game that pitted UNH against American International College. While the Chargers lost the game by a scant four points, the team, covered in mud by game's end, performed admirably.

The weekend concluded with the ever-popular Casino Night held in the Student Center cafeteria. Armed with \$2,000 worth of play chips, parents and their children tried their luck at the

With the snip of a scissors, the robot on loan from the Department of Industrial Engineering and Computer Science cut the ribbon officially dedicating the new wing of the School of Engineering during Homecoming. Flanking the robot are (l-r): School of Engineering Dean M. Jerry Kenig, President Phillip Kaplan and Board of Governors Chairman Norman I. Botwinik.

gaming tables while vying for a chance to win the evening's grand prize — tickets to a Boston Bruins game.

Sunny skies awaited Homecoming revelers the following weekend when a robot on loan from the Department of Industrial Engineering and Computer Science stole the show during the Dedication ceremony for the new addition to the School of Engineering — part of this year's Homecoming program.

More traditional Homecoming festivities got off to a rousing start with a pep rally in the Maxcy Hall parking lot on Friday evening, October 19. This year students entered more banners than ever before — 12 in all — making the judges' task especially difficult. In the end, first place went to the Latin Student Association; the Chemistry and Forensic Science Club and the Omega Delta Sorority received the second and third place awards.

On Saturday, two marching bands — one from Notre Dame High School and the other from Southern Connecticut State University — had people marching in place as they crowded the sidewalks and the North Campus athletic field to catch a glimpse of the Homecoming parade. Seated atop a bright red convertible, Homecoming King and Queen John Goodheart and Lori Baitel, both seniors, smiled brightly capturing the hearts of one and all. Then it was three cheers for some innovative student floats. This year's winning entries were submitted by the Fire Science Club, which claimed first place, followed by the Delta Chi Fraternity (second place) and the Omega Delta Sorority (third).

Then the Chargers wowed the crowds by taking an early lead in their match against the Owls and kept fans riveted to their seats as they went on to claim a sweeping 64-45 victory.

Homecoming Queen Lori Baitel and King John Goodheart charmed onlookers as they waved to the crowds during the Homecoming parade.

Students cheered for the Chargers as they watched UNH take the lead in the game against SCSU's Owls on October 20.

AROUND CAMPUS

This information was written by the staff of the Public Relations Department.

Provost's Office

Brenda Williams, assistant provost, was appointed to the Board of Directors of the Hartford Critical/Creative Thinking Center, Inc. for a three-year term. The Center provides resources and opportunities for the promulgation of critical and creative thinking in all aspects of education for schools, colleges, places of work and other organizations.

Hanko Dobi, associate director of libraries, was elected chairman of the College and Universities section of the Connecticut Library Association for 1990-91. In addition to other duties, Dobi will serve on the Association's Executive Board.

The annual Alpha Lambda Delta Honor Society Tea gave faculty, society members and prospective members an opportunity to mingle and meet at a gathering held November 6 in the Student Center Lounge. The Society, which currently has 39 members, performs community service in the New Haven area.

School of Arts & Sciences

Ramesh Sharma, assistant professor of mathematics, recently published an article entitled "Generalization of Myers' Theorem on a Contact Manifold," which he co-authored with D.E. Blair of Michigan State University. The article appeared in the Winter 1990 issue of the *Illinois Journal of Mathematics*. A second paper, "Conformal and Curvature Symmetries of Contact Metric Manifolds," has been accepted for publication in the Canadian journal *Comptes Rendus Mathematiques* of the Academy of Science and a third paper "Proper Special Conformal Killing Vectors and the Quadratic Theory of Gravity" was accepted for publication by the *Journal of Mathematical Physics*.

Donald M. Smith, associate professor and chair of the department of English, presented a paper entitled "Blake's Songs of Innocence and Eighteenth-Century Religious and Moral Verse for

Children" at the Mid-Atlantic Conference on British Studies held October 6 at Princeton University.

David E. E. Sloane, professor of English, was elected to the Connecticut Academy of Arts and Sciences on September 13. The Academy is the second oldest academic and scholarly association in the U.S.

Sloane presented "The Adventures of Huckleberry Finn: American Comic Vision" at the Mark Twain Memorial on November 17. The address included a special workshop geared specifically for Connecticut high school teachers and a discussion open to the public. Also, Sloane's fifth book, *Sister Carrie: Theodore Dreiser's Sociological Tragedy* has been accepted for publication by Twayne Publishers of Boston.

James Dull, professor and chair of the department of political science, was tapped as an authority to comment on the recent gubernatorial campaign in Connecticut by a variety of media including the *New York Times*, *U.S.A. Today*, *Connecticut Magazine* and *The Christian Science Monitor*.

The UNH Literary Club sponsored a talk by Charles Siebert, a noted essayist and journalist, in November in the Epicurean Dining Room. Siebert has published extensively in many major magazines including the *New York Times Magazine*, *Harper's*, the *New Yorker* and *Esquire*.

School of Business

David A. Maxwell, professor of public management, participated in a seminar held by the American Society for Industrial Security in Atlantic City, NJ. Maxwell, a member of the society's Safeguarding Proprietary Information Committee, spoke on "Trade Secret Law Requirements for Safeguarding Proprietary Information."

Judith Neal, associate professor of management, was an invited speaker at the monthly meeting of the Western New England Organization Development Network held December 3. Neal spoke on "Integrity — Where is the 'Heart' in Business?" She discussed a Fortune 100 ethics case that she experienced as an organizational development consultant.

Ruth Gonchar Brennan, director of the EMBA Program, addressed

SCIENCE LESSON—More than 200 junior and senior high school teachers and students attended a special science workshop hosted by UNH as a prelude to the 1991 Connecticut Science Fair. The workshop, held on campus November 17, featured a lecture demonstration entitled "Creativity in Science: Making New Connections" by Ron Perkins, a science teacher at Greenwich High School, (shown in photo above), as well as other activities. The workshop was made possible by a grant from United Illuminating with support from the Connecticut Pre-Engineering Program and the Connecticut Science Fair Association, Inc.

attendees of the Fairfield/Westchester chapter of the National Association of Corporate and Professional Recruiters on October 4. She was one of three panel members who shared their views on "Graduate Schools: Have They Let Us Down? Will They Meet the Needs of the Business Community?"

David J. Morris, assistant professor of management, recently published an article "The Railroad and Movie Industries: Were They Myopic?" in the Fall issue of the *Journal of the Academy of Marketing Science*.

Michael Kublin, assistant professor of marketing and international business, recently published several articles. They are: "The Soviet Pharmaceutical Industry," which appeared in the *Pharmaceutical Executive*; "The Japanese Approach Towards Selling," which appeared in *Business and Public Affairs*; and "Obstacles to Joint Ventures in the Soviet Union," which appeared in the *Journal of Business and Industrial Marketing*.

INFORMATION FAIR—More than 25 students and faculty from the university's School of Hotel, Restaurant and Tourism Administration, participated in the International Hotel/Motel and Restaurant Show held in New York City on November 10-13. Pictured in front of the UNH booth are (l-r): students Demetrios Alexiou, Adam Rutz, Michael Fitzgerald and Anthony Mango.

The show also included a Career Information Fair and Student Seminar sponsored by the Council on Hotel, Restaurant and Institutional Education and the Educational Institute of the American Hotel and Motel Association for the more than 500 student attendees. Benjamin Bhun, a UNH senior, was one of five students selected to participate in the seminar. His topic: "What Are Your Responsibilities in the Recruiting Process and/or Your First Job?"

School of Engineering

Ira Kleinfeld, professor of industrial engineering and computer science, presented "Manufacturing and Its Importance to our Connecticut Economy" at a meeting of the American Production and Inventory Control Society, Inc. held October 17 in New Haven.

Matthew Sanders, assistant professor of industrial engineering and computer science, wrote "Safety in the Automated Manufacturing Environment," a chapter in *Ergonomics of Hybrid Automated Systems II*, and "Planning, Designing and Implementing Computer Aided Manufacturing Systems," a chapter in *Justification Methods for Computer Integrated Manufacturing Systems*. Both books are published by Elsevier Science Publishers. He also published three papers in *University Programs in Computer-Aided Engineering, Design and Manufacturing*, a publication of the University of Michigan. The papers were: "Planning for Automation in Manufacturing Systems," "CIM Can Help U.S. Companies Establish a Competitive Advantage in World Markets of the 90's," and "Safety in the Automated Manufacturing Environment."

School of Hotel, Restaurant & Tourism Administration

Elisabeth van Dyke, assistant professor and chairman of the department of travel and tourism, was re-elected a member of the board of the Society of Tourism and Travel Educators at the society's annual meeting this past October. She will serve a two-year term.

A one-day entrepreneurial seminar entitled "Be Your Own Boss" was held on campus October 27. Warren Smith, acting dean of the School of Hotel, Restaurant and Tourism Administration, welcomed participants and also presented a segment entitled "Marketing Your Product." Other topics included start-up financing and the creation of a basic business plan. The seminar was sponsored by the School of HRTA in conjunction with the Small Business Administration, the New Haven Department of Services for Persons with Disabilities, the Institute for Human Resource Development, State Board of Education and Services for the Blind and the Division of Industries Center for Independent Living of Southeastern Connecticut.

Admissions & Financial Aid

James E. Martin, dean of student services, served as the host of the annual meeting of the National Orientation Directors Association held in Hartford on October 27-30. More than 500 people from the United States, Canada and Europe attended the event.

The university's Outstanding High School Senior Program is being offered at the university for the 19th consecutive year. The program, which offers top seniors the chance to earn 15 college credits as well as a semester of college experience at UNH tuition-free, has benefited more than 180 high school seniors from communities throughout Connecticut.

Marvin K. Peterson Library

The library staff welcomed five librarians from the Philippines who came to New Haven to visit libraries at UNH and Yale. The librarians, who were from some of the most prestigious academic institutions in Manila including Ateneo University, St. Scholastica College and Joze Rizal College, said they were favorably impressed by UNH, one of several colleges and universities they visited during their trip to the U.S.

ALUMNI

This information was prepared and written by the staff of the alumni and development office. Submit copy to the Alumni Office.

Letter from the Alumni President—

Dear Fellow Alumni:

This year I had the opportunity to become more involved with the university in my new role as president of the Alumni Association. I would very much like to share with you some of the observations I have gleaned through volunteering my services to the university over the past 20 years.

First and foremost, I have seen first hand the incredible growth of the West Haven campus due in large measure to the direction of President Phillip Kaplan, who has guided the university for the past 18 years. I see too, a faculty that continues to be of the highest quality and a hard-working, motivated and diverse student body that is UNH today.

As a UNH graduate, I take special pride in the growing generosity of our alumni who want to insure excellence at UNH. As alumni president, I believe that alumni involvement in every aspect of university life is key to insuring the university's future.

Please accept my invitation to join the Alumni Council in what I believe will be two very exciting years in alumni achievement. I welcome the privilege to serve the university and to get to know each of you, who remain so very much a part of UNH today.

Yours truly,

Stan Gniazdowski '72
President, Alumni Association

REACHING OUT—More than 40 students volunteered their services as callers during the 1990-91 Annual Fund Phonathon held on campus September 24 through November 30. Annual Fund monies are used in support of financial aid, library acquisitions, campus improvements and other university needs.

Annual Alumni Fund Makes a Difference and Strengthens UNH

Your gifts to the Annual Alumni Fund provide:

- ☐ scholarships for students
- ☐ faculty support
- ☐ library acquisitions
- ☐ support for new academic programs
- ☐ new equipment

Thousands of alumni support UNH through the Annual Alumni Fund. Each gift is needed. And each gift makes an important difference to the quality of academic life at the university.

Support the Fund this year with your own special contribution.

Class Notes

1940

Howard Hopkinson was hired as a draftsman at G&O Manufacturing Company on June 20, 1935 and was later promoted to manager of product design engineering. After retiring from G&O in 1982, he later returned to the company in 1987 as a consultant in the field of product design engineering.

1950

Richard M. Poach has retired as an intake specialist at Vermont Association Training and Development in St. Johnsbury, VT. Poach and his wife, Barbara, reside in East Burke.

1952

Edward C. Currie has retired as assistant treasurer of Pirelli Armstrong Tire Company of New Haven. Currie and his wife, Ruth, reside in Branford, CT.

1955

Murton W. Lyon, Jr. has retired from the U.S. Naval Coastal System. Lyon and his wife, Hope, reside in Lynn Haven, FL.

1963

Frank C. Degen has retired from SNET in New Haven. He lives with his wife, Carol, in Orange, CT.

1967

Michael A. Gordon has been named president of The Network Management Group, Inc. of New Haven. Gordon has been in the property management field for the past 25 years. He lives in Cheshire with his wife and three children.

1973

James F. Thibeault Jr. has been awarded the Jefferson Award for outstanding work in his community. Among his many accomplishments, Thibeault is credited with starting Cabin Creek quilts; was in VISTA for two years

and started the historical society in Malden, W.VA., where he helped restore Booker T. Washington's house. He also started community swim and road races; began a home for battered women; worked for United Way and assisted with job placement for the elderly. He and his wife, Karen, reside in Malden, where he works for Beneden Society and is a consultant for the department of Health, Education & Welfare in Washington, DC.

1974

Roy Hill, a 15-year veteran of the Weston Police Force, recently was promoted to sergeant. Hill has garnered many commendations and awards for meritorious service and has an impressive list of academic and professional credentials.

Vernon T. Lanthrip has retired from Electric Boat, General Dynamics. He resides in Niantic, CT.

William A. Mandeville is employed by DSC Communications as director of computer information systems. Mandeville resides in Plano, TX.

John E. Taylor has retired from the Connecticut State Police Force. Taylor resides with his wife, Teresa, in Plainville, CT.

1975

Joseph P. Lynch has retired from Textron in Stratford, CT. He and his wife reside in Port Charlotte, FL.

1976

Kenneth B. Biermacher joined Small, Craig & Werkenthin, a law firm located in Austin, TX, on October 1, 1990, as a shareholder. Biermacher, a business litigator, opened the firm's Dallas offices and will oversee their expansion.

James Stuart has retired from the Plainville Police Department. A 25-year veteran of the force, Stuart has a degree in criminal justice. He and his wife, Claire, are the parents of three daughters.

Francis L. Warren, Jr. has retired as a senior field engineer at U.S. Naval Education and Training in Virginia. He and his wife, Clementina, live in Virginia Beach.

1977

Albert G. Love is employed at Octocom Systems Inc. of Wilmington, MA, as vice president of engineering. He lives in Hampstead, NH.

Eugene E. Luthe has been promoted to divisional manager of Betz Entec Inc. located in Willow Grove, PA. Luthe and his wife, Judith, reside in Doylestown.

Tomas Reyes, Jr. has been accepted for graduate studies at Antioch New England Graduate School in Keene, NH, where he will pursue a master's degree in human services administration. Employed as an assistant administrator in the department of psychiatry at Yale University, Reyes is a New Haven alderman.

1978

Richard G. George is general manager of finance at Connecticut Steel Corporation. George resides in Watertown, CT.

Daniel P. Royce is sales manager at Michelin Tire Corporation. He and his wife, Stella, live in Midlothian, VA.

1979

Leo M. Connors, president and chief executive officer of Founders Bank in New Haven, has been elected to the executive committee of the Connecticut Community Bankers Association.

James W. Gibson has been promoted by the Southern Connecticut Gas Company to the position of executive vice president and chief operating officer. During his 20 years with the firm, Gibson has served as vice president for employee relations, consumer services, operations and, most recently, senior vice president and chief operating officer. Gibson and his wife, Eunice, are Hamden residents.

Dennis M. Phipps has been appointed chief of the Woodbridge Police Department. A 17-year veteran of the force, Phipps has been deputy chief for the past four years.

1980

Charles W. Cook has retired from United Illuminating. He and his wife, Judith, reside in Cheshire, CT.

William J. Mayer has been named executive and clinical director of Connecticut Counseling Associates of Long Hill Road in Groton, CT. Mayer is a certified alcohol counselor with specialized training in all areas of addiction. He most recently worked as a therapist at Middlesex Memorial Hospital in Middletown.

1981

George Catalano has been appointed assistant director of human resources at The Park City Hospital in Bridgeport, CT. Previously, he served as manager of employee relations at the Hospital of Saint Raphael in New Haven, where he was employed for the past 15 years in a variety of personnel positions.

Anthony DelMastro, chief executive officer of The Children's Center in Hamden, CT, has been elected to serve on the board of directors of the North Haven Community Advocates for a Responsible Education System. He and his wife, Susan, and their children live in North Haven.

Zanette Lewis-Moore has been named human resources director for the Community Renewal Team of Greater Hartford, a social service agency. Lewis-Moore is a resident of Hamden, CT.

1982

Richard E. Aniolowski has been promoted to detective in the West Hartford Police Department. Aniolowski who began working as a police officer in 1983, received the West Hartford Police Merit Award in 1989.

Alumni Directory

Soon, locating a former classmate will be as easy as turning a page in the new UNH Alumni Directory. Alumni Relations recently contracted with the Bernard C. Harris Publishing Company, Inc. to produce the 1992 directory which will include names, addresses, phone numbers of alumni as well as business and academic information about UNH graduates. Harris will be mailing a questionnaire to each of you to help the company compile the information you wish listed. (If you prefer not to be listed in the directory, please contact Alumni Relations in writing as soon as possible.) The directory is scheduled for publication in June 1992.

Robert S. Seamon is a pilot for Northwest Airlines. Formerly a captain in the U.S. Air Force, Seamon now resides in Mendota Heights, MN.

1983

Gail A. Ferris is director, information services, alumni and university relations, at Georgetown University in Washington, DC.

Ann L. Mauritz is technical group leader at California Institute of Technology Jet Propulsion Laboratory in Pasadena, CA.

1984

Michael Ambrosechio is president of his own real estate firm, Network Realty Group in Stamford, CT.

Robert J. Haley has been elected to the Board of Directors of the Healthcare Financial Management Association for fiscal year 1991. Haley is director of financial planning at the Hospital of St. Raphael in New Haven. He resides in Northford with his wife and three children.

John B. Popolizio, Jr. has been promoted to assistant news director at WELI 960 AM. He resides in Wallingford, CT.

1985

Paul B. Burke is attorney-trademarks/copyrights with Corning Inc. in Corning, NY. He and his wife, Theresa, reside in Painted Post, NY.

David B. Chamberlin is vice president, engineering and technology at Dictaphone Corporation in Stratford, CT. He and his wife, Judith, reside in Monroe.

Lydia R. Richards is a nutritionist with Medical and Health Research Corporation in New York City.

Adrienne Roberson is employed by American Society Mechanical Engineers as continuing education specialist.

1986

Kent M. Fields is employed at General Dynamics in Portsmouth, RI, where he is an engineer. He and his wife, Kathleen, live in Portsmouth.

John A. Francis is vice president at National Westminster Bank in Norwalk, CT. He and his wife, Ann, live in Stamford.

John W. Gerback, Jr. is an industrial engineer and safety supervisor with Raytheon-Advanced Device Center located in Andover, MA.

Thomas Terrible has been promoted to the rank of lieutenant in the Guilford Police Department. He is responsible for vehicle and building maintenance, records and evidence storage and support services.

Robyn J. Webster of Hartford, CT, has joined The Douglas Group Inc. as a research

associate. Webster was formerly with Spectrum Associates Market Research as senior research associate.

1987

Thomas E. Bower is employed as principal scientist/group manager at Analysis and Technology located in New London, CT.

Diana L. Meadows is research technologist in the bone marrow transplant program at Northwestern University, Chicago, IL. She resides in Lansing.

Bob Pannone has joined Beazley Co., Realtors in their West Haven office as a real estate consultant.

1988

Donald M. Brown is manager of The Terrace Tavern in Beach Haven Terrace, NJ, which was recently voted the number one Bar/Restaurant on Long Beach Island. Brown is also owner/president of Debut Restaurant Consultants, a private consulting firm. He married Tracy G. Conway in April 1990.

Albert N. Henriksen has been promoted to vice president of human and environmental resources at the UI Company in New Haven. Henriksen is a resident of Madison.

1989

Karen Camp, R.N., clinical director of surgical nursing at Yale-New Haven Hospital, traveled to Armenia in October 1990 with a medical team that made recommendations for the treatment of earthquake-related injuries.

James M. Satterwhite is employed at Mast Advertising and Purchasing in Overland Park, KS, as printing cost manager. Satterwhite resides in Kansas City, MO.

1990

Barry P. Bonito accepted a position with ADVO-Systems, Inc. as regional director of human resources. Bonito lives in Waterbury, CT.

Michael S. Daigle is director of risk management at Aetna Realty Investors, Inc. located in Hartford, CT. He resides in Middlefield.

Joan Fridshal has been notified that she has passed all parts of the uniform CPA exam. Fridshal will be pursuing a master's degree in taxation at UNH.

Stephen Hudecek is employed as senior engineer at General Dynamics in Groton, CT. Hudecek resides in Mystic.

Dawn M. Lowe of Cornwall, CT, has been appointed a financial aid counselor at Westchester Community College. While a student at UNH, Lowe was a graduate staff assistant in the financial aid office.

Kathleen E. Macie, a manager of corporate procurement for the GTE Service Corporation in Stamford, CT, was inducted as a member of the Yorktown Rotary Club.

Louis Ragonese is configuration manager with Science Applications International Corporation in McLean, VA. Ragonese lives in Washington, DC.

Dee Richmond is employed as human resource manager at Hi-G Company, located in South Windsor, CT. Richmond resides in Waterbury, CT.

Lawrence N. Spencer is employed by Babcock and Wilcox of Lynchburg, VA, as project planner. He is a Lynchburg resident.

Bequests: A Way to Remember UNH

Through the years, the University of New Haven has been the recipient of a number of large and small bequests. The majority of these have come from alumni and friends who wanted to support the university beyond an annual contribution. Many donors found that providing for UNH through a bequest gave them the assurance of financial stability in their lifetime and the pleasure of a lasting association with the University of New Haven or a particular school, department or fund of the university.

Bequests offer several benefits:

- the knowledge of providing for UNH, a department or a fund in perpetuity.
- an opportunity to establish funds in honor of a spouse, friend or faculty member.
- a potential reduction in estate taxes.

Among the types of bequests available are:

- **Percentage/Residuary:** the university receives a percentage of your estate. This method ensures flexibility as your estate grows.
- **Specific Amount:** the university receives a specified dollar amount of your estate.
- **Specific Assets/Personal Property:** The university receives an asset such

as stock, real estate or personal items, including artwork, jewelry, antiques or silver.

To include the University of New Haven in your will, please advise your attorney so that the full name of the particular school or department you wish to support is used.

For more details about making a bequest to UNH please contact:

Patricia J. Rooney, R.S.M.
Director of Alumni Relations
and Planned Giving
University of New Haven
300 Orange Avenue
West Haven, CT 06516
Phone: (203) 932-7268

Your request will be held in confidence and is entirely without obligation.

Men's Basketball Team Races To 4-1 Start

The Chargers basketball team got off to a rousing start this season sporting a 4-1 record through their first five games. If the trend continues they'll be prime for yet another 20-win season, the fourth in the last five years.

The Chargers opened the season with a disappointing loss to Merrimack College, but made a quick comeback with four straight wins. New Haven's offense scored a 122-83 victory over Mercy College, the most points since the 1973-74 season, rattled off a 96-74 win at St. Anselm's and broke the century mark in a 106-99 victory over Concordia.

Offensive players Brian Smith and Gary Battle have paced the Charger attack this season, averaging 19.3 and 15.0 points, respectively. Both seniors

already rank among the Chargers' All-Time Top 10 scorers and have a shot at becoming the second and third players in UNH history to eclipse the 2,000 career point plateau. Smith already scored 30 points in a game while Battle just missed that mark with a 29-point performance against St. Anselm.

Smith and Battle have had a great deal of support from their sophomore class teammates. Mike Grove currently ranks second on the team in scoring with a 15.3 average while classmate Jason Williams places fourth in scoring (13.3 points per game) and leads the team in rebounding, grabbing 10.3 caroms per contest. Sophomore Kobie Fowler has performed admirably since taking over the center spot for the injured Mike Rakowski,

who hurt his knee during the Mercy game and reinjured it in practice.

Fowler has averaged 3.8 points in four games but has made major contributions on the boards. To date, the sophomore has secured 8.5 caroms per game, placing him second among his teammates.

Probably one of the biggest boosts to this year's team is freshman David Sweeting, who has averaged 11.3 points per game through the first four contests and 2.5 steals. In one game, Sweeting netted 16 points in just 13 minutes of action.

With the right mix of senior leadership and sophomore might, the Chargers may well make the New England Collegiate Conference and win another berth to the NCAA playoffs.

New Head Coach Leads New Haven To Success

The New Haven women's basketball team faced many uncertainties when it started practice on October 15. With a new head coach and a roster which only had one senior and two juniors, no one was sure what to expect from the team.

Nine games into the season, New Haven is coming on strong, posting a 4-5 record, including a win over previously undefeated Stonehill College.

The Chargers opened the season with three wins in their first four contests, losing only to Bryant College on the road. The road has not been a favorite of this year's team. In fact, the Chargers are 3-1 at home while sporting a 1-4 road record. But that could soon change as the team develops confidence as the season progresses.

Liz Brandt has paced the New Haven attack with a 16.2 scoring average, the only player in double figures. She has blocked a team-high 10 shots and her .478 shooting percentage is the best among her teammates.

Head Coach Christa Champion hopes Brandt, a six-foot forward averaging 5.5 caroms per contest, will improve her rebounding statistics.

Newcomers Kelly Halpin and Nikki Tierney have been a big boost to the New Haven attack through the first part of the season. Halpin ranks second in scoring with a 9.5 average and her 7.3 rebounds are tied for the team lead with fellow guard Debbie Moore. Halpin's passing skills have also contributed to New Haven's early season success as the junior has dished off a team-best 29 assists. Tierney took very little time to adjust to the college game; the freshman ranks fourth on the team with an 8.3 scoring average. She is also the team's best three-point shooter, leading the Chargers in number made (5) and shooting percentage (.357).

Moore, the team's leading rebounder last season, continues to enjoy success under the boards this year. The sophomore is tied with Halpin for the team lead in rebounding and has

recorded a team-best 27 steals in nine games.

Junior Kim Sperry has also been an integral part of this team, sporting an 8.0 scoring average as well as 22 steals. Sperry is the only player to play more than three years at UNH. Brandt is a senior but transferred last season while Halpin, a junior, is a junior college transfer this year.

Along with Brandt, Arrette Harvey and Jennifer Wyslick have contributed to the Chargers' inside game. Harvey has rejected eight shots in six games and should improve on that total as the season progresses. Her 5.8 rebounds per game is second best on the team which is slightly above last year's average of 5.4. Wyslick also fills the lane defensively and has the capability to score points.

Coach Champion has done a fine job putting the pieces together from last year's 8-19 season and seems well on her way to turn the program back into the winning tradition to which fans have become accustomed.

Charger Fall Athletes Garner End of Season Honors

If post-season honors are any indication of how well an athletic program performs, the Blue and Gold had a banner year.

Quarterback Jay McLucas, a senior, was named a Kodak All-American, probably the most prestigious athletic award in the country.

The lefthander completed 209 of 402 passes for a school record 3,114 yards, becoming the first UNH quarterback to throw for more than 2,000 yards in consecutive seasons (2,025 yards in 1989). He also recorded a school record 23 touchdown passes, including his five-touchdown performance which led New Haven to a 58-57 win over West Chester. He threw for a school standard of 422 yards in that game, earning *Sports Illustrated's* Small College Player of the Week award.

McLucas also earned a spot on the All-ECAC team along with offensive tackle Harry Boatwain, receiver Pierre Fils and defensive lineman Leo Pinkston. Fils enjoyed a record-setting year, grabbing 63 aerials for a school record 1,121 yards. He also caught a career-best 11 touchdowns as well as led the team in kickoff returns. Registering 100 receiving yards in each of his first six games, Fils led the nation in receiving yards per game through eight contests. By year's end, he finished second in receiving yards per game and third in catches per game for Division II.

Boatwain contributed to the Chargers' strong offensive play this year. The 290-lb. tackle helped New Haven establish school records in passing yards in a season with 3,354 yards as well as total offense yardage with 4,524 yards. (New Haven also ranked as Division II's top team in passing offense, averaging 335.4 yards per game.) Boatwain became the first Charger to be invited to an All-Star bowl game, earning a spot in the All-America Classic, held January 20 in Tallahassee, FL.

While Boatwain dominated the offensive line, Leo Pinkston was the anchor for defense. Pinkston, New Haven's top pass rusher for the second straight year, registered 5.5 sacks and holds the school record for most career sacks with 20.5. The senior finished the year with 48 total tackles, 24 solos.

Freshman tailback A.J. Livingston, a first-year player, earned the ECAC Rookie of the Year award. He set school records for most touchdowns in a season (17) and in a game (4) and established the standard for most points in a season (102). Livingston, the first freshman to run for more than 700 yards in UNH history, finished the year with 793 yards on 157 carries, having collected over 100 yards in three different games.

All five of these players were also

Pierre Fils, one of 13 UNH football players who earned special end-of-the-season honors, led the nation in receiving yards per game through eight contests and earned a spot on the All-ECAC team.

named to the Division II All-New England team as were eight other Chargers. McLucas, Livingston, Boatwain, Fils and Pinkston were named to the All-New England first team as were linebacker Keith Stamp and punter Kevin Kirsch.

The second teamers included tight end Dave Carlon, receiver Dan Schwab, offensive linemen Brian Houston and Scott Emmert, defensive lineman Liam McKiernan and safety Tory White.

The football team finished the year with a 7-3 record and were ranked as high as 10th in the country, only the second time in the Chargers' 18-year history they have reached that spot.

In addition to football, several soccer players also received post-season

honors. Back Abou Cisskoho was named to the All-New England Collegiate Conference first team for the second straight season. Cisskoho made the first team as a forward last year but was switched to defense midway through the first half of the 1990 season. The sophomore performed admirably scoring five goals and four assists.

Luigi Cappetta, the school's leading scorer, earned a spot on the All-NECC second team despite being a rookie. Cappetta netted 11 goals and five assists for 27 points, the most since the 1985 season. Joining him on the second team was senior Ian Pollard, a back. Despite not scoring a point, Pollard was probably the team's most valuable player. He was always given the responsibility of marking the opponent's top scorer and on several occasions, shut that player down.

Meanwhile, all six starters from this year's volleyball team received All-NECC honors, the second straight season that the entire starting lineup made the teams. Robin Salters, Vincia St. Jean, Arlene Marshall, Noel Ostrander and Quyen Vu were named to the first team while freshman Semaj Douglas made the second team. Five of those six also were named to the All-Northeast Region squad with the only exception being Noel Ostrander. Ostrander missed nine matches with an ankle injury, causing her to miss the qualifying standard of playing in 75 percent of the team's matches.

Head Coach Debbie Chin did not miss out on any laurels this year as the veteran mentor earned Northeast Coach of the Year. Chin has become a regular when it comes to that award, leading the Blue and Gold to NCAA appearances in seven of the last eight seasons.

The volleyball team finished the year with a 33-11 record with one of those wins coming in the NCAA tournament. The Chargers defeated Southeast Missouri State in four games before losing to host Central Missouri State, the nation's fourth ranked team, in three games. This season was the third straight year that a New Haven volleyball team was selected for the NCAA tournament.

Scholarship Ball to Honor Bruce and Kaplan

The Eighth Annual Alumni Scholarship Ball will honor William C. Bruce, B.A. '74, as the 1991 Distinguished Alumnus, and UNH President Phillip Kaplan, who will conclude his tenure as president after 18 years at the helm of the university. (See cover story.) The gala event will be held at the Athletic Complex on the North Campus on April 20.

Bruce, a member of the UNH Board of Governors, is an attorney with the Hartford-based law firm of Pepe and Hazard and serves as an adjunct professor in the UNH Graduate School. Previously, he was vice president, general counsel and corporate secretary of Pirelli Armstrong Tire Corporation. A past president of the UNH Alumni Association, Bruce is credited with initiating the first Scholarship Ball in 1984. He holds a degree in political science from UNH and received his juris doctor degree from the Yale Law School.

Bruce will share the podium with President Kaplan during the evening's events. These will include the formal

announcement of the Phillip Kaplan Permanent Collection, which will become a part of the Marvin K. Peterson Library holdings. The core collection will include books on business, economics and related subjects.

The Scholarship Ball is held each spring to benefit the UNH Alumni Association Scholarship Fund. Established in 1984 by members of the UNH Alumni Association council and board of directors, this endowed fund supports partial scholarships drawn from the fund and based on academic merit and granted to day and evening undergraduates and graduate students.

The ball will include cocktails, dinner and dancing, as well as the presentation of the Distinguished Alumnus Award and special recognition of the president. All alumni, friends of the university, and members of the community are invited. Ticket requests and inquiries regarding the Kaplan collection should be directed to the Alumni Relations office, (203) 932-7270.

William C. Bruce, B.A. '74, an attorney with Pepe and Hazard and an adjunct professor in the UNH Graduate School, will be honored as the 1991 Distinguished Alumnus at the Eighth Annual Scholarship Ball.
